<City, State Zip Code>

Dear <Title> <Name>:

It is with great anticipation that I present my resume to you for a position as a Physical Education Teacher, with the <School District>. In addition to acquiring a Bachelor's degree in Physical Education, I have 10 years of hands-on experience. As a highly enthusiastic and encouraging teaching professional, I am confident in my ability to become a valuable member of your academic team.

As you will note, the enclosed résumé highlights my career accomplishments, as well as my desire to promote strong sportsmanship and a healthy lifestyle. Being a versatile educator, I have had the opportunity to instruct a wide variety of students including those challenged by ADD/ADHD, developmental delays, learning disabilities, and other health-related afflictions. I have also taught children who functioned below-, on-, and above grade level. As a result, I am a person who assesses each student's unique needs, tailors lesson plans to accommodate diverse interests, develops and adheres to IEPs, and provides individualized support.

Additionally, I encourage student learning by incorporating exciting sports, games, and activities that reinforce the importance of health and physical fitness. These activities also promote active participation, teamwork, organization, and strategy. I also utilize a number of approaches and teaching techniques to ensure that each student is able to comprehend the presented information, enhance their own personal skills, and have fun and socialize.

One of my greatest strengths is keeping students motivated and participating in the learning process while showing the utmost sportsmanship. In addition to the above methods, I provide individualized praise and positive encouragement to boost all students' self-confidence and self-esteem while developing an excellent rapport with students.

In closing, I welcome the opportunity to meet with you to discuss how my extensive experience and skills would benefit <insert name of school district>. Thank you for your time and consideration, and I look forward to hearing from you soon.

Sincerely,

Joe PhysEd
